GitHub: github.com/sujith0466

AI & Full Stack Developer pursuing B.Tech in AI & Data Science. Experienced in building AI-powered SaaS platforms, intelligent automation systems, healthcare AI solutions, and enterprise-grade web applications using React, Flask, FastAPI, Python, SQL, and Generative AI technologies. Passionate about Agentic AI, Full Stack Development, and scalable software systems.

Educational Background

B.Tech in Artificial Intelligence
and Data Science

CGPA: 8.64

Annamacharya Institute of
Technology and Sciences,
Rajampet
2023 – Present

Intermediate (MPC)

89% | 2021 – 2023

SSC

97% | 2021

Technical Skills

- Python
- JavaScript
- Flask
- React.js
- FastAPI
- PostgreSQL
- Generative AI
- HTML/CSS
- Tailwind CSS
- MySQL
- REST APIs
- Machine Learning
- NLP
- Power BI
- Git

Work Experience

Cognifyz Technologies – Power BI Intern

Apr 2026 – May 2026

- Created interactive dashboards & KPI reports using Power BI.
- Performed data cleaning, transformation, and visualization.
- Worked with real-world datasets for reporting and business insights.

Pantech eLearning – Virtual Internship

Apr 2025 – May 2025

- Completed internship focused on Python for Data Science.
- Worked on preprocessing, visualization, and analytics.
- Built a credit card fraud detection system using ML concepts.

PROJECTS

FairAI Pro

- AI fairness and bias detection platform.
- Flask backend with deployed frontend.
- CSV validation and automated reporting.

CoverageIQ AI

- AI-powered code coverage analysis platform.
- Identifies coverage gaps and high-risk code areas.
- Generates intelligent test recommendations.

Certifications & Achievements

- Power BI Internship – Cognifyz Technologies
- Google Prompt Wars Virtual Challenge Participant
- Career Essentials in Generative AI – Microsoft & LinkedIn
- Data Visualization & Cybersecurity Virtual Experience – Forage
